They would need to show evidence of loss of income during period of grant 17 Oct 2020– March 2021 compared to late 2019 to early 2020. If they give accounts for 2019–20 and

2020-21 this may be the easiest. If they are a new business they need to give accounts from when they started.

They will also need to give bank statement for whatever account they use for the business. They need to make sure they put same account details on the form.

ID if they are a sole trader e.g passport, driving licence. If limited company – incorporation document.

Evidence of trading – I cannot remember but form might ask for a specific date. This could be invoice, sales receipt, delivery note, expenses receipt etc

Evidence of property costs e.g rent statement.
